ABOUT US

We mentor justice involved individuals into life changing careers in the skilled trades and labor industry.

Project Reset is dedicated to guiding individuals with justice involvement toward fulfilling careers in the skilled trades and labor industry. Through strategic partnerships with local unions, employers, and federally registered apprenticeship programs, we facilitate access to well-paying skilled trade positions, complete with benefit packages. Our vision to provide tools and support to redirect an individual's path through education and skill development which will lead to employment in the skilled trades and labor industry.

Project Reset participants are assigned a mentor who provides one-on-one case management and assists individuals in navigating through the entire program.
